ABOUT ME

I am a motivated and enthusiastic Computer Engineering student at Pune Institute of Computer Technology, currently pursuing a B.Tech degree. I have a strong foundation in computer science principles, programming, and software development. I am eager to apply my technical skills, learn new technologies, and contribute effectively in real-world projects. I thrive in collaborative environments and am committed to continuous learning and professional growth.

EDUCATION

Pune Institute of Computer Technology, Pune

B.Tech in Computer Engineering | Pursuing | Expected Graduation: 2028

Loard Jiweshwar English Medium School & Jr. College, Ichalkaranji

12th (Science/PCM) | Year of Completion: 2024 | Percentage: [85.66]

Maharashtra Highschool & Jr. College, Kolhapur

10th (SSC) | Year of Completion: 2022 | Percentage: [83]

SKILLS & ADDITIONAL INFORMATION

Technical Skills

- C & C++ – Basics of programming, algorithms, data structures, memory management, and problem-solving.
- HTML & CSS – Creating and styling web pages (structure and design of websites).
- React Native – Building cross-platform mobile applications (Android and iOS) using JavaScript and React from a single codebase.
- JavaScript – Making web pages interactive and dynamic; also used for React Native and backend development with Node.js.
- Node.js & Express.js – Building backend applications, REST APIs, authentication, and server-side logic.
- MongoDB – Managing and using NoSQL databases to store and retrieve application data.

Soft Skills

- Problem-Solving – Analyzing issues and finding solutions.
- Teamwork – Working well in groups and collaborative projects.
- Adaptability – Learning new technologies quickly.
- Time Management – Prioritizing tasks and meeting deadlines.

Languages

- Native Language: [Marathi/Hindi]
- Other Languages: English (Proficient), German (Basic)

EXPERIENCE

Hostel Advertising Platform – Designed and developed a modern UI using JavaScript, HTML, and CSS for a local hostel's online presence, including room details, facilities, image gallery, pricing, and inquiry/contact pages. (GitHub- <https://github.com/Manthankhade/Ramkrushna-Boys-Hostel.git>)

PROJECTS

TrackExpense – Built a personal expense management application using TypeScript, JavaScript, HTML, and CSS, featuring expense tracking, transaction management, and a clean, user-friendly interface for organizing daily finances. (GitHub- <https://github.com/Manthankhade/TrackExpense.git>)

ExploreTrends – Developed a responsive e-commerce frontend using TypeScript, JavaScript, HTML, and CSS to showcase trending products with category-based browsing, product listings, and an intuitive shopping interface. (GitHub - <https://github.com/Manthankhade/ExploreTrends.git>)

ChessMaster – Developed a real-time multiplayer chess application using Node.js, Express.js, Socket.IO, EJS, and JavaScript with live move synchronization and responsive UI. (GitHub - <https://github.com/Manthankhade/ChessMaster.git>)
